

Aloha Senator / Representative,

Please accept the attached **Citizen Memorandum** for your review and inclusion in the public record.

This memorandum is submitted by concerned Hawai'i residents to formally document constitutional, legal, and governance concerns related to recent and ongoing legislative actions and the expanded use of executive emergency powers. The issues addressed include parental rights, private property protections, and the balance of powers between the executive and legislative branches.

The purpose of this notice is not partisan or adversarial. Rather, it is intended to:

- Place these concerns formally on the legislative record
- Request legislative review, discussion, and oversight where appropriate
- Encourage transparency, accountability, and public trust in government

As elected members of the Hawai'i State Legislature, you hold the authority to:

- Enact laws that limit or clarify executive emergency powers
- Refuse to extend emergency proclamations
- Conduct hearings and exercise legislative oversight

We respectfully request that this memorandum be reviewed within the scope of your legislative duties and retained as part of the public record.

Thank you for your service to the people of Hawai'i and for your time and consideration.

Respectfully,

(Your name)

On behalf of Hawai'i citizens
