

CITIZEN ENDORSEMENT, ADOPTION & RATIFICATION STATEMENT

In Support of the Citizen Memorandum: “Restoring Constitutional Rights in Hawai’i”

I, the undersigned, being a resident and/or citizen of the State of Hawai’i and acting in my private capacity, submit this statement in support of constitutional governance, parental authority, bodily autonomy, property rights, and lawful limits on government power.

I hereby **affirm, endorse, adopt, and ratify in full** the Citizen Memorandum entitled “**Restoring Constitutional Rights in Hawai’i**,” including all parts addressing parental rights and medical transparency, biosecurity emergency powers and property rights, and emergency proclamations, constitutional limits, and long-term governance.

I expressly declare that I have reviewed the memorandum, understand its constitutional foundations and demands, and **incorporate it by reference** as though personally signed and submitted by me in its entirety.

I support the memorandum’s call for:

- Primary parental authority and informed consent in medical decision-making involving children;
- Constitutional protections against coercive or compulsory medical policies;
- Judicial warrants, due process, and just compensation for any taking or control of private property;
- Strict limits, transparency, and legislative oversight of emergency powers; and
- Restoration of constitutional checks and balances with respect to executive authority in Hawai’i.

I submit this endorsement **voluntarily and without coercion**, as an exercise of my constitutional right to petition government for redress of grievances and to place my position into the public record. This endorsement is intended to be **permanent, cumulative, and additive**.
